

Dear SABPA Community:

I believe that everyone of us is deeply concerned about the recent novel coronavirus (2019-nCoV) outbreak that has become a global health emergency. Our hearts go out to the people in Wuhan and surrounding areas who have experienced the most hardship in the past few weeks. The SABPA leadership team has been closely monitoring the situation and actively discussing what we can do to help offer some much-needed relief to the people who have been affected most by this outbreak. Here are the answers to a few frequently asked questions I would like to share with you.

### **1. Does SABPA accept donations for the 2019-nCoV outbreak relief?**

Yes. Currently, SABPA is accepting donations towards the Coronavirus Outbreak Relief Fund. SABPA is partnering with ACCEF to purchase critical medical supplies to be shipped to the areas hit hardest by the coronavirus outbreak with your donations.

### **2. How do I make donations through SABPA?**

We encourage you to make donations at the SABPA website (visit [www.sabpa.org](http://www.sabpa.org), go to the “Donations” tab, and click “**2019-nCov Relief Fund**”), or click the link [here](#). You will receive a confirmation email and be recognized on the SABPA website (optional) once the donation is made. Please contact Mingzhu Zhang at [mingzhu.zhang@sabpa.org](mailto:mingzhu.zhang@sabpa.org) should you have any questions about making donations for this specific effort.

### **3. What is the plan for the upcoming SABPA events?**

Public health and safety is always the first priority for SABPA. We have made a decision to cancel the 2020 Chinese New Year Party and will instead donate the money allocated for this event to the Coronavirus Outbreak Relief Fund. We will also make any necessary adjustments to our future events over the next few months and communicate the changes to you on our website and newsletters.

### **4. Where can I get information on the prevention of 2019-nCoV infection?**

SABPA recommends that everyone gets the latest [updates and guidance](#) from the US CDC website.

- A. [CDC guidance in English](#)
- B. [CDC guidance in Chinese](#)
- C. [CDC guidance on traveling to China](#)

SABPA is committed to work with all of you and make our contributions to the relief of the novel coronavirus outbreak! Please email your questions and suggestions to [info@sabpa.org](mailto:info@sabpa.org).

Best regards,

Peter Huang, President
