

April 25th, 2020

Dear SABPA Community:

In the past few months, we have watched COVID-19 developing into a global pandemic impacting communities around the world, including ours. We hope that you and your loved ones are staying safe and healthy at this unprecedented time.

To extend our early decision of canceling the events planned for the 1st half year of 2020, we now announce to cancel our annual Biopharma Conference on 6/6/2020 as a precaution for the health and safety of our community. Further notifications will be communicated to you through our website and newsletters.

Since February, SABPA has focused on supporting the community on the fight against COVID-19. With your generosity, we have raised more than \$50,000 within a week and procured about 20,000 pieces critical medical PPEs to support the front-line medical workers. The [donation report](#) was updated on the SABPA website. In addition, we have organized a series of the [COVID-19 webinars](#) to educate the public on limiting the exposure to and spread of the coronavirus.

Please feel free to contact us through the email info@sabpa.org, should you have any question on canceling the annual Biopharma Conference on 6/6/2020.

Best regards,

Peter Huang,
President of San Diego Chapter
